- Laravel

EXPERIENCES & PROJECTS

Flowerstore Group

Web Developer (April 2019 – March 2021)

- Created four full-stack web applications to satisfy the needs of the rapidly growing company.
- Developed all the user interfaces of the four full-stack web applications using HTML, CSS, Blade, and ReactJS.
- Collaborated with the app development team, including the project manager, developers, and quality assurance specialists, to identify problems, testing methods, and best practices.
- Managed time-sensitive updates, such as changing content and marketing campaigns.
- Optimized the company's complaints handling process.

Pictureworks Group Pty. Ltd.

Full-stack Web Developer (March 2021 – Aug 2021)

- Optimized the React application to improve user experience.
- Ported the functionality from the PHP application to the new modern React application.
- Created reusable React UI components following design system guidelines.
- Documented installation steps for onboarding new developers.
- Collaborated with other developers to deliver the best solutions on a given task.

Squidpay

Part-time Front-end Web Developer - (March 2021 – Sep 2021)

- Translated Figma designs into reusable React components.
- Conducted Jest unit testing and collaborated with backend developers for API integration.

- Reviewed and tested pull requests from other developers.

Web Blocker

Full-Stack Web Developer – (Sep 2021 – Present)

- Designed the logo, homepage, and UI of the extension using Figma.
- Developed the homepage using Next.js with TypeScript.
- Created the Web Blocker extension using HTML, CSS, and React, adhering to Chrome Extension API standards for uploading to the Chrome Web Store.
- Deployed the homepage on Vercel for seamless access.

WQAPH

Part-time Full-Stack Web Developer – (Feb 2024 – Present)

- Designed the logo, website, and dashboard using Figma.
- Developed the homepage using the latest version of Next.js, Tailwind CSS, and TypeScript.
- Collaborated with backend developers for seamless API integration.
- Reviewed and tested pull requests from other developers to ensure code quality and consistency
